5 YEAR LAMINATED GLASS WARRANTY

Each unit of clear and tinted laminated safety sheet glass sold for architectural purposes, to be free from delamination for a period of five (5) years from date of manufacture.

This warranty does not apply to exposed edge laminates manufactured with PVB interlayers or any post-polished SGP interlayers.

The warranty shall be void if architectural or security laminated glass products have been damaged in handling or installation or have not been installed to glazing guidelines for laminated glass; or have been subjected to stress or strain by reason of localized application of heat which caused excessive temperature differentials over the surface edges; or have not been protected against movement of building structure; or have been installed without provisions required by sound practices for adequate expansion and contraction of framing members; or have not been otherwise properly handled or installed; or if laminated glass has been exposed to solvents, acids or any cleaner with ammonia or non-compatible sealants, including, but not limited to, compounds, tapes, paints lubricants; or the glass is installed in a system that does not include a weep system or some means of water repulsion; if edges are exposed, or if the laminated glass has not been installed within 30 days of delivery. The manufacturer reserves the right to field inspect any architectural or security laminated glass products which is alleged to be defective.

Architectural or security laminated glass products glazed by material which do not completely repel water for the life of the warranty, or with materials that deteriorate the architectural or security laminated glass products will not be covered by the warranty.

The use of Portland or gypsum based cements will void warranty as they are not compatible with laminated glass.

There is no warranty for glass breakage. The buyer is responsible for processing any and all freight claims.

This warranty does not apply to materials not paid for in full. This warranty does not apply to laminating of customers own products.

This warranty does not apply to any units that are installed outside of North America or that are installed in watercraft, land vehicles, trailers, saunas, swimming pools, solar collectors or refrigeration units.

This warranty is in lieu of any other warranties, expressed or implied, as to merchant ability, fitness for a particular purpose or any other end purpose or use and there are no warranties that extend beyond the description on the face hereof. Buyer shall assume all risk and liability for result obtained by use of the products whether singly or in combination with other materials or products.

Due to the inclusions of hidden or visible "stones" in glass which are detrimental to the strength and appearance of glass and which may cause "spontaneous breakage" (most often found in tempered glass products). A warranty will not be considered or issued for breakage due to nickel sulfide, quartz, silicone, devitrication, scum, aluminous, cristobalite, batch or other stones formed by insoluble grains of contaminating materials and raw materials.

Liability under any warranty by PFG Glass Industries is limited to the replacement of the materials only without charge, F.O.B. PFG Glass Industries or, at the option of PFG Glass to refund the purchase price of the products. PFG Glass Industries shall not be liable for any incidental or consequential expenses, such as removal of the defective glass, installation of replacement glass, equipment or labor costs arising from or alleged to have risen from the use of any glass covered hereby.

PFG Glass Industries is not to be held liable for damages or expenses due to the following: late delivery of raw materials, manufacturing delays, defective or broken glass (except to extent of express warranty), internal errors, improper handling or negligence by buyer, delays due to strikes, fires, delay of carriers, priorities of the government or any department thereof, acts of God or acts that are unavoidable and beyond the control of PFG Glass Industries.
