

Service and Quality  
beyond expectation.

## CNC FORVET OPERATOR

We are a glass manufacturer selling predominantly into the construction community addressing both commercial and residential projects. Our emphasis is on supplying a quality product on time every time and we are looking for individuals that have a very strong work ethic and can roll up their sleeves to pitch in wherever needed and support their team-members.

**This shift will run Sunday to Thursday (Can be a 7pm to 3:30am shift or 10pm to 6:30am shift). The 7pm shift has an additional \$1.50 per hour shift premium and the 10pm shift has an additional \$2 per hour premium**

\*\*\*Please note – for inexperienced Team Members, training will be during the dayshift\*\*\*\*

**Day-to-day tasks for the CNC Water Jet Operator will consist of the following (but not limited to):**

- *Loading the CNC machine with glass pieces*
- *Run pre-programmed codes and unloading completed pieces*
- *Read drawings and inspect product quality*
- *Assist with machine preventative maintenance tasks*
- *Assists other team members as needed*

**Why work for PFG?:**

- *Starting wage of \$17.00 per hour (more if you have industry /glass experience)*
- *Company matched RSP Program of 2% (4% after four years of service)*
- *Extended Health and Dental benefits after successfully completing 6 months (100% company paid premiums with the exception of LTD)*
- *OSSE (Occupational Safety Standard of Excellence) certified work environment*
- *Jean allowance (three times per year – totaling \$150)*
- *Annual Steel toe boot allowance (\$100)*
- *Paid sick days*
- *Employee appreciation events*
- *Employee referral program*
- *No experience needed as we will train*
- *Increase in wages based on performance, quality, attendance & punctuality*
- *Opportunity for long-term growth*

If you are interested in becoming part of the PFG team please send us your resume for consideration or drop off in person to 27413 55 Avenue Langley, BC
